It allows you to protect your system in a single simple step. Instead of using multiple programs to unlock your computer you just use your phone or tablet to unlock it. This tool is not a remote control system, and it can not replace your antivirus software or any remote desktop software. Passcode Utility Pro Starting with Windows 7, Windows has a built-in Passcode Utility that allows you to set up a password to protect access to your computer. Choose the duration of your password and choose from the following options: You can also use the Windows 7 Keystroke Debugger feature to modify your key combinations when you are locked out of your computer. If you want to use the password feature, and you want to restore access, you can use the Windows Remote Desktop Access feature. Software like this one is not installed on your system, so we recommend that you use a third party password tool, like PasswordXP. Install instructions You will need to use an Internet connection, software installation instructions are not included. Supported Operating Systems Supported Operating Systems are: Windows 7, Windows 8, Windows 8.1, Windows 10, Windows 10 Education, Windows 10 Enterprise, Windows 10 IoT Enterprise, Windows Server 2008, and Windows Server 2012.
