If you have installed the bridge, you need to go to the "Additional Plug-in" and add "Bridge" to the list. Now that you've installed the bridge, you may be wondering about which effects you can use in EDIUS. There are several effects listed in the Bridge under Additional Plug-ins. You can either drag the effects into the plug-ins window from the bridge file, or you can add them to the list under Additional Plug-ins. This means you can't use them as dynamic plug-ins. If you drag the bridge file to the EDIUS window, the effects you are using will be listed in the EDIUS Effect List. In the Bridge window the effects ba244e880a
