Here's the latest email that we've received about this IP address: HOST APPLIED: CID: 934 IP: 178.244.80.115 HOST NAME: pc.avvid.net I could not find any information on this host and it's not a site-specific IP. This IP belongs to someone who has been using it in the past but I could not find any evidence for it being linked to a malicious server in the past. Still, we would like to warn other sites against having its IP addresses in their SPF records if this server is under their control. This is because there is a chance that the server could be used in the future for malicious purposes (e.g. distributing malware) which could cause damage to other sites. If this is not the right way to protect your site, please contact us through the contact link on our website.
