I'm trying to get the google adsense module to show at the bottom of my site. It shows fine if I put it in the header but I can't get it to show at the bottom of the page. How can I do this? A: If you're using the common layouts within Ubercart, you should have to specify it in the Ubercart layout. In the admin section of your Shopify store, go to themes -> Ubercart and find the theme. Find the layout named: site-sidebar-page.tpl.php where tpl refers to template. Then look for this: The most important part of the code is the if (\$page_title) { } statement. If you look at the code for this, you'll see it reads like this: This is basically telling the module to only display the code block if there is a page title that it's looking for. Your page title is defined in your template, so if you put the following in your theme directory: Then your module should display the page title. Change that line in your theme 9df0af710a
