KeyMacro enables you to automatically copy and paste any text to Mac clipboard by pressing just one key. In other words, it is a shortcut that can be used to open multiple URLs in the same tab, quickly search for a specific text, record videos using a shortcode and more. The program will save you from the hassle of having to memorize long commands to make your task easier. In fact, the application gives you all the information you need to make the most of your Macbook without having to leave the keyboard. KeyMacro is particularly useful when it comes to system administrators who deal with lots of different web addresses. On the other

hand, regular users will enjoy the fact that it can also speed up the process of copying and pasting texts, websites or even entire files. The program is available for free and can be downloaded from the web. You just have to make sure that your operating system is capable of handling the app. If you do have an OS version older than MacOS Lion, you can install the application using the latest Mac App Store update.

KEYDRAG Description: KEYDRAG is a sophisticated app that aims to save you from boring copy/paste operation by allowing you to easily select, drag and drop a piece of text or URL. The application relies on keyboard shortcuts

in order to make it possible to accomplish specific tasks with ease. For instance, you can record videos by simply clicking on the camera icon and then pressing 'SPACE'. To record on-screen activity, you have to use the 'CTRL + CMD + C' combination. Furthermore, KEYDRAG is useful when it comes to making quick changes in the coding. However, it is important to remember that when using the keyboard, you have to be careful that you do not press 'Control' key instead of 'Command'. Also, make sure that you use the 'Esc' key when you are done with the task you are currently performing. KEYDRAG comes with a stylish design

that fits in the Mac OS X user interface. Moreover, you can easily install the app using the latest Mac App Store update. It is recommended to select the Overwrite Pre-installed App option in order to keep all the apps that were installed when you installed the update. If you are thinking about buying KEYDRAG, you can try its free version first. However, you have to be careful about not being connected to the internet when you do 1d6a3396d6
