Office Wall License Key

1. This Add-in is an Outlook Web Access (OWA) browser add-in. You can set up a new wall on your OWA pages, and select specific users that will have access to post messages. 2. You can define how the wall will appear and how messages can be posted. All the postings can be saved and sent to you in HTML format. 3. You can filter the wall by status, age, organization, owner, type of message and time. 4. The messages are searchable by sender, subject, location, date, time, type of message, attachments, key words and by who posted. 5. You can post your own messages or browse through the messages already posted. 6. The current wall can be updated. This can be done either by simply setting the new list or by selecting the user list. 7. Each user can be allowed to post new messages, approve or delete messages and approve or delete new postings. 8. You can save the current state of the wall, so that you can restore the wall to the saved state at any time. 9. The wall can be saved in different formats. You can easily restore the wall to any previous state. 10. Reports can be generated for each user. 11. The add-in uses an advanced JavaScript to execute functions on the client side. All messages are saved in a private database. 12. You can make the wall accessible to external people. Visit Site: Version 1.01 (December 16, 2007) This add-in supports a new feature of the Outlook 2007. 1. Improved HTML rendering 2. When adding a new wall, the name of the wall will be automatically saved in the list. 3. New list windows are not shown in the OWA. 4. Updated Wall Settings dialog. Installation Instructions: 1. When installing Office Wall, it must be started after Outlook is installed. 2. Download the.zip file. 3. In the Installed add-ins folder, unzip the Office Wall. 4. Start Outlook. 5. Click on the File menu, and then click on Options. 6. Under Add-ins, select the first option of Plugins, and then click on Settings. 7. In the list on the left side, select Office Wall. 8. Click on the
