picador v5.4 39 MB Memories - Create a photo album using over 15 different templates. The program has many interesting and unusual interface settings - for example, you can change the color of each individual window, select a background image or add your own photos, as well as change the text font and size, position photos on the page, change the text color and much more. The program has the ability to print photos on a printer, as well as export a photo album to HTML format!
