Last week, as part of our monthly update, we did a mini review of the apps for iOS 13 and the operating system launched. As per usual, there were hundreds of apps out there that we have to look over and as we come through them, they don't impress us, but we try to list them here for others. Kasper Apps is the home of a number of apps. They are different in nature but they have one thing in common. They are all available in the iOS App Store and they have all been uploaded by a guy known only as Kasper. So far, they have only a few that have been released but they have some good apps, and we would like to know what you think of them so we'll let you know if they are
