
Download Fluke Network Inspector 5.0

No summary. index conditions. At a Glance: Fluke network spector 5.0 monitoring fills a gap in tools. It combines a hardware protocol analyzer (SPECTRA) and network analysis software. Fluke Network Spector provides a user-friendly analysis interface that allows you to select or view all IP protocols and their types, and analyze system status. The built-in diagnostic capabilities of Fluke SPECTRA and SPECTRA PLUS make it easy to identify performance issues and enable multi-IP protocol testing
