

Focusing on experimental methods, authors Ann Myers and Christine Hansen guide students step by step through the entire research process, from creation.. Focusing on experimental methods , authors Anne Myers and Christine Hansen guide students step by step through the entire research process, from creating a research project to completing it and presenting the results. The book is based on practical tasks and observations that can and should be applied in life. The book is addressed to students and teachers of psychology departments, as well as to anyone interested in psychology.
