Key Macro is the most advanced Mac OSX keyboard shortcut manager. With it you will get what you are looking for: customize all keyboard shortcuts with a single click. Key Macro and its predecessor "TextExpander" allow you to create an infinite number of keyboard shortcuts for almost anything in the Mac OSX system. It has no limits: it will record what you type in any application, no matter what language it is, and it will store it into a plain text file. Key Macro is a standalone application, with no need of any other program. Key Macro allows you to save keyboard shortcuts in many formats (plain text, XML, HTML, etc.), and it has a friendly interface and an extensive documentation. Key Macro is also a really powerful and reliable tool for those who want to learn how to create keyboard shortcuts on their Mac OSX systems and who want to create and re-create some actions in the Mac OS X system. Key Macro works only with external USB keyboard connected to the Mac. There are no known compatibility issues, so it can run on any Mac computer.
