Zimeta Content Builder is a free application designed to help you quickly create a website. Despite its simplicity, the program is packed with features and options that will take your website creation to the next level. In addition to the standard features you can expect from a free website builder, Zimeta Content Builder also offers : • Auto-Update: all the websites you create will be automatically updated to the latest versions of Wordpress, Joomla and Drupal • Pre-defined templates: pre-defined templates for Blogs, Business Website, Club and Forum • Fonts and Page Titles: choose one of the 57 premium and free fonts from Google Fonts • Lightbox: organize your images like galleries • Page Titles, Logo, and CTA Text: you can place text anywhere on your webpage to add in your brand. You can also choose to add your logo and create one-click buttons using one of the 50+ shortcodes. It seems that Zimeta Content Builder costs money. But this is not the case: the program is absolutely free, and is suitable for individuals and small businesses that want to create simple websites quickly and easily. What's New in this version: • Improved: all templates now have a dark theme included; • Various: the star and to comment module has been improved; • Fixed: bug that caused not to display correctly the design for the club templates.
