Ultimate Squeeze Page Generator Pro Features: 1. Full Page With Animated Background Image We have designed our squeeze page generators for different type of pages. We have used CSS to minimize page size. Note: We have also provided options to disable this feature to create smaller pages. You can also remove this feature if you don't want to use it. 2. Configurable squeeze page background color It is easy to understand that on a squeeze page your primary attention will be on the image (or animation on your squeeze page) you want to display. That is why we have included a color selector feature to let you choose a nice background color for your squeeze page. 3. Full Page With Animated Image (configurable height) While designing a squeeze page, it is very important to keep your eyes on the page without any distraction. We have included options to configure the animation which will help you keep eye focused on your squeeze page. You can configure the animation and its height on the fly. 4. Configurable text (configurable color) We have included options to configure the color of text on the page, including text in the headings, the text above the image 09e8f5149f
