

• Download latest version of the app • Shortcuts to easy download • Auto detect URLs to download the page • Select your location to download the page • Choose file size and write the amount of the downloads • Free PDF, text, zip and rar file extractor • Export URLs to your computer • Show downloading speed • View the file status • Auto send to the destination folder • Open with built-in PDF reader • Option to auto start the application at start up • Customizable status bar • Shortcuts to click on the items to show or hide the menu • Bookmark tools and search in the downloaded folders • The Downloads in the folder Description: • Download the latest version of All Downloader • Auto detect URL to download the page • Select your location to download the page • Choose file size and write the amount of the downloads • Free PDF, text, zip and rar file extractor • Export URLs to your computer • Show downloading speed • View the file status • Auto send to the destination folder • Open with built-in PDF reader • Option to auto start the application at start up • Customizable status bar • Bookmark tools and search in the downloaded folders • The Downloads in the folder Description: • Download the latest version of All Downloader • Auto detect URL to download the page • Select your location to download the page • Choose file size and write the amount of the downloads • Free PDF, text, zip and rar file extractor • Export URLs to your computer • Show downloading speed • View the file status • Auto send to the destination folder • Open with built-in PDF reader • Option to auto start the application at start up • Customizable status bar • Bookmark tools and search in the downloaded folders • The Downloads in the folder Description: • Download the latest version of All Downloader • Auto detect URL to download the page • Select your location to download the page • Choose file size and write the amount of the downloads • Free PDF, text, zip and rar file extractor • Export URLs to your computer • Show downloading speed • View the file status • Auto send to the destination folder • Open with built-in PDF reader • Option to auto start the application at start up • Customizable status bar • Book

What's New in the All Downloader?

All Downloader is a simple and easy-to-use utility whose main purpose is to help you to download various types of content using an intuitive interface. The application aims to download video files, movies, HTML pages, images or any other content that you are interested in. Simply input the URL address in the main window and start downloading your favorite files. It carries out its task very quickly and the usage is very simple: enter the URL address of the file you want to download, specify the destination folder and hit the 'Download' button. Then, you have the possibility to view the downloading speed and the status for each downloaded file. Although the utility does not provide you with advanced features and its main interface is very simple, it does its job well done. Still, a downside of the application is that you need to input the URL address each time you want to download something. A great functionality was to get integrated within your browser, and each time a downloading was detected, the application would start automatically allowing you to set the destination folder and view detailed information. Still, if you copy the download link into the main window of the application, it will automatically detect the application or the file you want to download and enable you to grab and save it onto your system. All things considered, All Downloader is a useful and practical application worth having when you need to download movies, pictures, audio and video files and any other web content. Although it does not interact with any installed software, nor put a strain on system performance, the utility helps you to grab any file you want from the Internet. Description: Download videos to MP4 format easily! Download the HD/HQ version of each file right to your PC! Download any video to MP4! Download videos to MP4! All videos to MP4! All videos to MP4 and much more! All videos to MP4! Description: Download videos to MP4 format easily! Download the HD/HQ version of each file right to your PC! Download any video to MP4!
