Convert CDs/DVDs to ISO images. CD2ISO combines powerful CD and DVD optical disc decoders with a simple interface and a powerful disc creation engine. It is able to convert any

CD/DVD image to ISO. With CD2ISO, you can make and burn CD/DVD ISOs. You can even use CD/DVD decoders other than those provided with CD2ISO. CD2ISO is based on the excellent C2ISO image converter. However, CD2ISO provides a GUI, a much simpler and more user-friendly interface than C2ISO. The program features a unique burning tool. A big plus in the program is the high image quality, thanks to advanced filtering algorithms, which also work with any image software (e.g. GD). There are four distinct photo-specific image formats: JPG, BMP, GIF, and TIF. Plus, you have the option to add some special features (e.g. animations, panoramic photos, watermarks, and text overlays). Two modes are available: a fast mode for burning a ISO image to a CD/DVD disc, and an advanced mode that lets you add compression filters, preview, generate the disc art, and more. All DVD image formats supported: ISO, VOB, MPEG, PS, TS, AVI,

DAT, RAM, MOV, RAR, and ZIP. CD images supported: CDDA, CDI, and CAF. To sum it up We have tested CD2ISO to find out how well it fulfils its promises. The result is far from being unpleasant. The application can provide a stable solution for those who wish to create and burn ISO files, even at a high image quality, for both Windows and Linux users. Smart Utility is a Windows application which allows you to preserve crucial files or folders, as well as create back up copies or duplicate them. You can see the list of files and subfolders which will be backed up, save a backup copy, or move a file or folder to another location. A separate section provides all the information about the current backup job. Smart Utility is highly compatible with all the popular data compression formats, such as ZIP, RAR, JAR, ACE, TAR, LZMA, GZIP, and BZIP2. It is easy to use, offers an intelligent interface, and is protected from any mistakes you may make. What's 6a5afdab4c
