It isn't the entire game. It's not an actual forensics boot camp. It isn't a live-forensic class. I've tried to boil down the best way to teach and train. Crime Scene Investigator had one great, unique, fun, insightful, and useful-to-the-field class, but more is needed to help the general public better understand what's going on in a crime scene. These are essential things that can be taught. Being able to represent what's actually happening at a crime scene is important. Being able to correctly distinguish gunshot residues from environmental evidence and spit — one of the easiest evidence items to confuse — is important. It's a game that will give your brain an awful lot of fun. I think that's important. And, the more you work with CSI: Miami, the better you'll be. You'll get to work on some of the better cases. The cases we are using are not the good ones, so you won't be getting all the same questions as the players: what kind of gloves did they wear? what kind of wipe? what kind of brush? Too, you'll gain the ability to understand evidence that you normally wouldn't, which should help you along. What's more, you'll get to see the setup of how things are played as the writers do. It will help you understand the series. All in all, I think the class is great. It's easy to follow, free to register for, and very, very informative. It's not a forensics class. It's a game. It's a lot of fun. First, the basics. An easy way to learn to play the game is to download our e-book, CSI: Miami Trouble Shooting. There is no charge for the e-book and it has a nice thorough walkthrough. There are ten classes, with two being always taught, multiple being taught sporadically, and one class usually being the most frequent taught. So, you'll see if you know the game
