The protest has gathered a momentum as angry farmers have

joined hands. The protest march will begin from Kochi at 4 pm and will culminate at the Kerala government headquarters in Thiruvananthapuram. Thousands of protesters are expected to take to the streets. In the coastal state, as many as 7,000 farmers belonging to different political parties, including Left and Republican, have vowed to form a 'human chain' in protest against the Centre's land acquisition policy. On October 28, the Keralites had first started agitating against the Centre's land acquisition bill when they staged a protest march to the Indian Parliament in New Delhi. They had then burnt effigies of the Centre, BJP and NDA

government. According to sources, the Centre had been seeking to acquire land for various reasons.

1. Technical Field

The present invention relates generally to the field of communication and data processing. More specifically, the invention relates to a method and apparatus for synchronizing the reporting of broadcast data content and metadata to a device receiving the data.

2. Description of Related Art

Traditionally, information is transmitted from a broadcasting station to a subscriber to a particular channel by a process involving combining and formatting all of the information to be transmitted into a single data stream.

This data stream is then subdivided into data packets for transmission to the subscriber. Since the subscriber has no knowledge of the location of the data packets within the data stream or of the frame boundaries of the data stream, the subscriber must estimate the location of the data packets and the transmission frame boundaries. The data packets and transmission frame boundaries are conventionally reported from the broadcasting station at a constant rate. As the data stream is being transmitted to the subscriber, the subscriber has the ability to alter his/her viewing or listening preferences. For example, if the subscriber discovers an

interesting segment in the data stream, the subscriber may request a re-transmission of the data stream to that location in order to view or hear the interesting segment. In the above-described prior art method, the data stream is only available for re-transmission at

The Prophet and his Companions, with their eyes and ears being ever directed to the face of Allah, and with their inner faculties subject to the Will and Commands of their LORD, and by the Divine Inspiration of His Wills, or else by the Invocation of His (plurality of) Messengers or of His (plurality of) Relatives, brought (all of) these (decrees) with their Applications to a specific point, thus refuting all kinds of those who invented such (excessive) assertions; although those who become involved with such arguments and

statements are certainly an Alif Walla, a Kaba'il, and a Burda" (Fathi al-Shawkani, Al-Tabaqat al-Kabir, vol. 1, p. 828) Ahadith from the Prophet Muhammad regarding the concept of Kalima. The Concept of Kalima:.. The Prophet Muhammad was asked about the concept of Kalima by some people.
