On December 17, 2015, Valve added a number of achievements, which are gradually unlocked as the player progresses through the game. The achievements are divided between the single-player mode and the multiplayer mode. In addition, Valve also released a free downloadable patch that fixes a number of issues with the game, especially in the Multiplayer mode. The patch also adds an exclusive multiplayer map, as well as an exclusive downloadable character skin. In September 2016, Valve announced the addition of User-Generated Content to the game. It also became officially available after extensive server and networking tests. Co-Founder and CEO Marc Doyle said that the content has passed the "long and complex" testing process. While the game features a Save system, it only allows the player to load the game at the level they were when the save was made. The game supports both singleplayer and multiplayer modes. The singleplayer mode is offline and only permits the player to compete against computer opponents, while the multiplayer mode allows the player to compete against other players online. The player can also create their own maps and play them in multiplayer mode. It supports the Xbox360 and Xbox One consoles, as well as the Windows PC. There are some improvements made to the engine with each version and patch. The original version was limited to 200 players and had a maximum of eight players to a single court. The newer versions allow for more players and up to 64 players. This version also has a much
