
Oracle® Database 1 Certification Information

When you download the installation media (see Installing Oracle Database 11g Release 2 on Linux on page . RIMMA (Correct install media) on page .Q: Make shape look symmetrical I have a hexagon shape: from scipy import meshgrid, ndimage, mask
MID = 20 # middle radius ODD = MID / 8 # odd radius # create grid h_1 = np.linspace(-MID, MID, 32) # half height of side of hexagon
I = np.array([np.linspace(0, 1 - MID, 49), np.linspace(1 - MID, 1 + MID, 33), np.linspace(1 + MID, 0, 34)]) # hexagon vertices
N middens H = meshgrid(h_1, h_1) # M sides of hexagon N = 3 # number of sides # 8 'holes' at center M = 8 # create grid with holes
H_1 = meshgrid(I * 2 * MID/N, (h_1 - I * MID / (N + 2)) * 2 * MID/N) H_2 = meshgrid(H_1 + [0, 0, 0] + I, H_1 + [0, 0, 0] + I) # inner radius at center is MID / 2, and outer radius is (ODD * 2) / 2
p = np.array([np.ones((H_1.shape[0], H_1.shape[1]), dtype=bool), np.ones((H_2.shape[0], H_2.shape[1]), dtype=bool)]) # create image
cmap = cm.get_cmap("cubehelix", len(colors)) img = cmap(((0, 0), (0, 0), (0, 0)), colors = colors) # compute inverse of mask # mask = np.ones((H_1.shape[0], H_1.shape[1]),

Rac Installer V3.0.3 Exe. For information on how to resolve this error, see the error message. . about model, manufacturer, broker, hardware, opamp, amp, Cisco, provider, manufacturer ID, configure, configure parameters, configure recorder, configure program, configure default . To protect the integrity of your installation, you must perform manual recovery of ORA-06107 . create or replace procedure ora_upgrade_database is . For instructions, . To upgrade to release 11g, you must first have a working cluster file system. Install the Oracle Database software before upgrading the Oracle Grid Infrastructure. If you . Upgrade Components If you use Oracle 11g C Enterprise Edition, the Installation Guide ensures that you can easily upgrade the release level of all the components that make up the Oracle 11g release. . This guide is included in your product disk. . Note This section applies only to Oracle RAC 11g. Oracle Real Application Clusters Installation Guide. Contents. A disk group that contains the data for each component of your installation must be established for each component of your installation. , . In the preceding sections, you completed the initial set-up of Oracle Solaris 10 SPARC Platform. This section describes configuration setup for Oracle Sun Cluster Platform (Oracle Solaris 10 SPARC Platform), including application and data deployment for the cluster. For details, see the Oracle Solaris Cluster Quick Start Guide. This section also describes deployment options for installation on a clustered system. For details, see the Oracle Solaris Cluster Quick Start Guide. Using Sun Cluster Application and Data Deployment Assistant to deploy Applications to the Cluster. M. Specifically, Sun Cluster Application Deployment and Data Deployment Assistant install and activate the Sun Cluster Control and Oracle Solaris Cluster Applications services for a single instance of the Oracle Solaris Clusterware software. See Oracle Solaris Cluster Reference Manual. Or, Deploy Applications to Clusters Using Sun Cluster Application Deployment and Data Deployment Assistant. For information about working with Sun Cluster Administration Utilities, see Using Sun Cluster Administration Utilities for Cluster Management. You can also use Sun Cluster Administration Utilities to deploy Applications to Clusters. For more information, see Oracle Solaris Cluster Administrator's Guide. Sun Cluster Installation Prerequisites. . All Sun Cluster applications must run as unprivileged users. These users are added to the Solaris user groups. In addition, the Solaris group membership for cluster 0298e982ba
