WL-5420CAM Setup Wizard Video: High Definition Compatible Image: ... Cheap IP Camera and IP Camera Systems for Home & Enterprise Solutions — This site is dedicated to all network security solutions and is now offering Top Quality wireless IP Camera systems at Budget Prices and Downloadable Wireless IP Cameras. The Uniden TB-637IP is a 1.3MP wireless network camera with a hard drive that records video and stores photos in a single, compressed file to a hard drive or a TFTP (FTPe) server. Uniden offers the TB-637IP as part of a network camera system which may include a power supply, AC power cable and management software for the camera and management of the network. This model offers good picture quality with a video rate of about 30fps, and very clear compressed files and stored images. Also the camera can be connected to a computer using a USB cable, and can also stream video to a tv. Uniden TB-637 IP Network Camera and Management Software – This software turns the TB-637 into a network camera in just a few clicks. The installation process is easy and just takes a few minutes. Uniden also provides a model management software that you can install on a computer or on a network router or firewall. This software allows you to control the camera and to view images in real time on a monitor or TV. Unlike other IP camera management software, the Uniden software does not require dedicated hardware or a broadband connection to your computer. Built-in hard drive – the camera's built-in 512MB (Model TB-637H) or 1GB (Model TB-637T)
