The New England Patriots have added another future Hall of Famer to their locker room. Defensive lineman Kyle Love announced on Twitter on Tuesday that he has signed with the Patriots. #Patriots have signed OLB Kyle Love! Most recently

playing with the Oakland Raiders, Love joined the New England Patriots after a two-year run with the Tennessee Titans. Love, 36, was selected by the Oakland Raiders in the fifth round of the 2009 NFL Draft. Love will now join defensive end Chris Long as part of the New England Patriots' 2013 training camp roster.

Q: How to change the name of a directory with python? I know this may be very silly question for most of you but it's something new for me. The user should be able to enter a name for his new directory (and create it if it doesn't already exist). I'm trying to do it with Python's `os.makedirs()` method. There are some questions

regarding this on stackoverflow but they deal with modifying the directory (rename it, add/remove files,...) and not only creating a new one with the given name. Thank you for your help!

```
A: import os
myPath = 'C:\Python27\test'
def
make_dir(name):
try: os.makedirs(name)
except OSError:
if os.path.isdir(name):
raise os
