Keymacro is a free keylogger software that secretly records all keyboard strokes and turns Windows into a keylogger. Features: Smoother mouse movement and copy - you can now copy exactly what you type. No more waiting for the program to get out of viewport. This is because a thin layer of paint is now placed on top of everything. Change clipboard mode - with Mouse Toggle Clipboard you can choose between normal and quick paste. Hide mouse cursor on a client pc - have you ever accidentally clicked on the mouse or when you just needed to copy some text or email address from an active window? Well, no need to worry now. Keep mouse in the middle - when a window is maximized on your primary screen, the mouse will be in the middle of that window. Keep mouse on top - You can tell your Mouse Toggle Clipboard to move your mouse to the top of every active window. Quick Win Shortcut - You can now open any windows you want by pressing Ctrl+L, and just type the window name. Easy Drag and Drop - Just drag the text from any app you wish to the clipboard, and use the drop to insert into any other document. Save document as Text/HTML/Image - You can now copy any text, image or file into a.txt,.html, or.jpg file. Save a selected string of text - save a text document and just paste it into any application of your choice. Save an image from a website - now just copy the image URL from any website and paste it into your favorite image editor. Custom hotkeys - you can set the hotkeys for each of your text files, as well as the program. Desktop wallpaper image - save a desktop image as a PNG file. Program Settings - you can customize the look of the program to make it your own. System Requirements: Operating System: Windows XP/Vista/7/8 RAM: 2 GB or more Hard disk space: 300 MB or more It is possible to change the password of the program and update the program, so that there is no need to go through installation process every time you use this application. Conclusions: Though it can be seen from the above features that the software has a lot of the basic features that other similar programs have, it can also be noted that it has features that set it apart from other similar programs. The main difference is that the application can record 1d6a3396d6
