

There are 2 ways to complete a CCNA a Routing & Switching certification. 1. Upon presentation of the CCNP certificate exam in the prescribed amount and based on the positive recommendation received during the re-crediting of modules, it is necessary to complete the exam, and the course of study and certification must be transferred to the next semester. Achieving CCIED status is not the end of CCA training. 2. Proceed to the next level of certification by giving your course of study CCIAE status. The movement of training and certification courses for all 5 modules to the CCIO level and above is carried out as the course progresses. Successful completion of the second stage, acceptance of the certification exam and progression to the next degree requires the completion of control modules from the CELP course of study. Below is the list, date and time as found on the CEELP EU website and in the CCSC Certification Program Library.
