## **KNote Portable Crack +**

The portable edition of KNote is a notes organizer that facilitates a free blog open to the public, where you can publish and share personal ideas, thoughts and anything of importance with your friends and family. The generated links are not shown online. Compared to the installer, this version can be stored on a USB flash drive to always carry it with you when you're on the move, and fire up the note-taking tool on any computer directly, without having to set up any prerequisites. Free account registration and intuitive UI To start using the app, it's necessary to create a free account on the spot with a unique username and password. As far as the interface goes, KNote Portable opts for a large window with a background picture and neatly organized layout, where you can create notes and put them in different folders. Office-grade text tools for publishing notes Basic text formatting and office-grade options are supported, such as ordered and unordered lists, block quotes, paragraph alignment, hyperlinks, subscript and superscript, custom characters, or heading styles. You can insert KNote links and timestamps, set up tables, indent lines, enable a spellchecker, assign tags, as well as embed images by entering the photo URL and description, along with the alignment mode, dimensions, border, vertical and horizontal space. It's possible to use a search function across multiple notes, filter them by tags, edit properties, publish notes on the developer's website, optimize the database, change your account's password, import HTML or text documents, as well as remove or change the background image by navigating to KNote Portable's files ("bg.jpg"). Additional functions make it possible to insert multiple pages into one note, change or remove the background image, or remove the tools menu. The app also handles bookmarks or bookmarks of tags. If you're a frequent user of KNote, you can also save pages and share links on Twitter, Facebook, Google+, or export the contents of each note to an HTML file. The tools menu (File - Tools) includes functions such as Quota usage, a task manager, text formatting tools and the following options: - Change your account's username, password, or pick a new image as the background. - Update the data in your database. - Remove saved notes. - Import and export notes from HTML files. - Download the KNote Portable installer or activate it from the developer's website. - Change
