RubberStamp With License Key Download

User-friendly clipboard manager that combines the functionality of a paintbrush and the efficiency of a mouse. Works with every modern Windows version, including Windows 8, Windows 7, Windows Vista, Windows XP, Windows 2000, Windows NT. Supports all Windows menu bar items, such as the Start menu, the File menu, the Windows Explorer menu, and even the context menu. Allows you to define custom collections of commonly used text pieces. Your collections can be easily managed with the integrated editor, which allows you to set the text entries' colors, background, font, and style. Clipboard entries can be stored as a new entry or as a copy of an existing entry. Allows you to lock any item you don't want to edit or overwrite. Creates custom collections of text pieces and then allows you to search for text within them. This is a highly intuitive clipboard manager, with the advantage of not requiring you to memorize any shortcut key. It's an extremely customizable app that offers a very easy to use user interface. From any text entry, you can copy a piece of text, then paste it as an entry in any custom collection. You can choose to paste an entry to any list in the current clipboard. You can also create and paste new entries in the current clipboard. Create a single or multiple entries and store them in one click. Clipboard entries are copied to the clipboard in one go. Takes advantage of the current Windows clipboard. Works with every modern Windows version, including Windows 8, Windows 7, Windows Vista, Windows XP, Windows 2000, Windows NT. Supports all Windows menu bar items, such as the Start menu, the File menu, the Windows Explorer menu, and even the context menu. Allows you to define custom collections of commonly used text pieces. Your collections can be easily managed with the integrated editor, which allows you to set the text entries' colors, background, font, and style. Clipboard entries can be stored as a new entry or as a copy of an existing entry. Allows you to lock any item you don't want to edit or overwrite. Creates custom collections of text pieces and then allows you to search for text within them. Shows a color-coded information bar at the bottom of the screen, to quickly find text pieces. You can click anywhere in the application window to paste the clipboard text. Paste an entry as one of the items

RubberStamp Crack Activation Code With Keygen PC/Windows

A quick and easy-to-use clipboard viewer that supports macro functionality. KEYMACRO is an independent clipboard viewer, which enables you to view and edit a list of up to a dozen key sequences. Simply enter the required command (macro) and KEYMACRO will display the text (or other object) and any properties that you specified. KEYMACRO is a light, fast and very easy to use program. It contains the typical file (document) browser, but unlike other applications, it is a fast, no-frills clipboard viewer and an excellent replacement for your previously installed full-fledged macro editor. No programming is required to make KEYMACRO work, and there are no programming dialog boxes to learn. All the buttons and menu items are either provided in the default theme, or with a right-click. After you have created the required key sequence, you can add it to the clipboard, if you wish, or just copy it to the Windows clipboard. You can also open any file in the KEYMACRO file browser to get to the selected object. Lighter and more reliable than most applications KEYMACRO allows you to load up to 12 different sequences into its memory. It can be easily accessed from the 'File' menu, and any macros can be deleted or edited, which is not possible in the case of regular macros. KEYMACRO's default theme is pre-programmed for both Windows 95 and Windows NT, but you can easily change its color scheme to match your taste. KEYMACRO works best on a two monitor system, but you can use it with only one monitor as well. New Release Notes: KEYMACRO: Version 0.95 Now supports multi-monitor operation! KEYMACRO: Version 0.95.01 - Fixed a bug that could lead to a crash. KEYMACRO: Version 0.95.02 - Fixed a bug that could lead to a crash. KEYMACRO: Version 0.95.03 - Fixed a bug that could lead to a crash. KEYMACRO: Version 0.95.04 - Fixed a bug that could lead to a crash. KEYMACRO: Version 0.95.05 - Fixed a bug that could lead to a crash. KEYMACRO: Version 0.95.06 - Fixed a bug that could lead to a crash. KEYMACRO: Version 0.95.07 - Fixed a bug that could lead to a crash. KEY 1d6a3396d6

RubberStamp Crack+ Free

RubberStamp is a lightweight, multi-clipboard application that allows you to easily save multiple text entries as templates for quick pasting, copy pieces of text to the clipboard, as well as paste them back to the clipboard or to the new application. Unlike other programs of its kind, RubberStamp does not require you to memorize key combinations for the pasting operations. Instead, it is capable of showing up as the default Windows clipboard app when you are creating new entries on your system. The application can be set to stay on top of all the opened Windows, offering one-click access to any of the stored items. Furthermore, RubberStamp is very easy to use and configure, with an integrated editor where you can easily enter the text to be saved and alter the appearance of the buttons and labels. To create a new entry on your clipboard, just copy the desired text to the clipboard and right-click any of the available buttons. To prevent the current entry from being overwritten, you can lock the application, disabling editing. In case you want to save a short text entry as a new clipboard item, there is a much simpler alternative to using the dedicated editor. Simply copy the text piece to the clipboard and right-click on any of the available buttons. Description: The creators of RubberStamp decided to create an easy-to-use application that would enhance the Windows clipboard functionality in a few simple clicks. The application doesn't require you to memorize complex shortcut keys, but instead offers one-click access to the pieces of text you want to paste. You can save multiple text entries as templates to use for quick pasting without having to go through the cumbersome process of memorizing key combinations. RubberStamp displays a simple window consisting of twenty buttons that you can customize and assign labels for easy recognition. Furthermore, the application is compatible with all Windows versions, starting with Windows XP. Please see the following message from Dave Nommensen. I am working on getting our people on his East desk connected.
