You can play against computer, other players and your friends.

**Collection Manager X64**

Collection Manager is a utility for Internet and network files. It automatically organizes your files into a collection on your hard disk and stores your photo collection, your music, your scanned documents, your email, your faxes and a whole lot of other information. It is very easy to use, offers you a visual interface and a simple, clean and modern look. Every time you use the software you get a fresh set of collections, since the software keeps a record of your own collections and shows the last set of them, so you don't have to run through your file system looking for the collections you already have. You can decide what to add to the collections, specifying in the Collection Definition which fields you want the items to have. In addition to being an automatic organizer, Collection Manager is also a great note-taking and information organizer, since you can add notes for a collection, choose to email them as soon as the note is saved, or save them in a diary. ## What's New In Collection Manager?

Create collections easily Each Collection has a name and uses a Collection Definition which defines up to 10 user-defined fields. Collection Items are then added to the Collection. For a Collection Item you can record a name and description, keywords to assist when searching for specific Collection Items, purchase details (date purchased, price and who the Collection Item was purchased from), sale details (date sold, price and who the Collection Item was sold to). You can also record estimated and insured value and up to three photos (with optional captions). More features and tools Extensive search options allow you to find Collection Items that satisfy specified selection criteria. You can also record details about your contacts, including contact name, telephone numbers, email and web-page addresses, physical addresses, scheduled calendar events and diary events. The eCampaign feature allows you to send the same email message to any number of your contacts. All in all, Collection Manager is a nice and useful application used to record details of your collections and thus help organize files on your computer using lots of nice features and tools. Description: eCoupons Plus! is a small and nice application used to create your own eCoupons. It can track and create coupons for individual products or several products at the same time.
