Hovering over one of the links in the menu works fine, but if you're hovering over another element in the page, it doesn't have any effect. I noticed this after adding some new links to the navigation. I 1a22cd4221

I love the difficulty of the AI in AAA games, and I've been trying to create one for the past few years. Here is my attempt at making one, in the beginning of the game we start with the usual situation of starting each match, a lot of defensive mistakes and a lack of offensive opportunities. Over the next few turns our
