System Requirements:

Windows 7 64-bit Mac OS X 10.5.8 or later Can be used with any USB device This is a very simple desktop accessory that's basically a solution for the USB port on most laptops. It's easy to use, can be used with any USB device and it has a large capacity. It's the world's first removable USB drive that can be easily stored in your pocket and carry around with you. I never thought that I would want such an accessory. I'd rather take my laptop than carry this around with me
