Sothink SWF Easy Product Key is a professional software application whose purpose is to help you create Flash animations, banners, greeting cards, or photo albums, while allowing you to choose between a wide range of banner templates and animated Flash effects. Working area The user-interface may seem a bit overwhelming at a first glance but this is only because the

program comes packed with many dedicated parameters. You can rely on the comprehensive help manual and step-by-step approach for making the most out of this utility. The working area is divided into several panels, such as Scene, which is used for organizing your document thematically (e.g. introduction, loading message, and credits), Timeline (for adding effects to elements), Shape, the place where you can

draw shapes and apply effects, Properties (for setting the properties of an element: background, frame rate, size), Resource files, and Component, which enables you to insert radio buttons or check boxes. Special effects Sothink SWF Easy Download With Full Crack offers support for various built-in effects for helping you animate your text, shapes, and images. Plus, you can edit the effects, add multiple ones to one

element, as well as stack multiple effects for generating a completely new one. Thanks to its wizard mode, you can create a normal album, flip album, banner, or navigation buttons in just a few minutes. Drawing operations What's more, the tool offers support for various editing tools, such as line, pencil, square, and circle, and gives you the possibility to color elements, tweak their position and size, insert images (e.g. BMP, JPEG,

SVG, EMF), embed rich-formatted text, as well as arrange your objects with the aid of a ruler, grid, and alignment operations. Built-in resources and other handy tools The program comprises several resources that include animated buttons, greeting cards, and backgrounds, so you don't have to start from scratch. There are also vector shapes and sound files included in this section. Other notable characteristics

worth mentioning enable you to import SWF files, choose between several components useful for designers who are building Flash applications, such as buttons, check boxes, radio buttons, scrollbars, and text scrollbars, export the project to SWF, GIF, or AVI file format, as well as add action scripts to elements and scenes for a better control over the animation. An overall efficient Flash creator All in all, Sothink SW

Sothink SWF Easythat's purpose is to create Flash animations, banners, photo albums, and greeting cards. Working area takes the form of a split screen displaying all aspects of the application. Properties and Timeline can be used to edit the document thematically, such as changing the background color or any text, while the Shape tab allows creating objects, their

properties, as well as applying effects. All sorts of background shapes and patterns are accessible, along with a number of vector shapes in various colors for crafting your own background. You can insert different effects, such as photo frames, video, gradient, squiggles, animations, etc. Combining them, you can create a realistic effect for your project. Besides, in the Resource panel, you can define resource

files. To customize the animation, you can use the wizard mode, which, at its core, is just a collection of tools for drawing simple elements, such as circles, rectangles, and squares, thus allowing you to arrange and assemble elements into scenes. With this mode, you can quickly create an HTML Flash document for creating an Internet portal. Working in the Scene tab, you can insert prebuilt components, such as buttons, check boxes,

radio buttons, scrollbars, text and image scrollbars, etc. It is also possible to modify all these elements in the Properties panel or through the Timeline, as well as add action scripts to the scene or elements for better control over the animation. The app also includes a file importer that makes it possible to upload SWF files for working with them, export the project to SWF, GIF, or AVI file format, and add action scripts to elements and

scenes for creating an improved animation. A handy Flash creator Sothink SWF Easy includes Sothink SWF Easy's powerful and optimized software, consisting of a collection of tools for creating a Flash animation, a set of vector-based shapes and patterns, and rich media resources. Working area consists of a split screen, where you can access properties, effects, and timeline for modifying the project's layout. There are 3
