Written By: VAAVA Article Source: Lifehacker Posted: July 22, 2010 at 9:13 pm Comments I don't know but if the name of the program has some culture in it (Like "notepad") it usually means that its notepad from Microsoft. I am sure they do not want to be seen as code editors. Written By: davidlennon Article Source: SoftKube Posted: July 22, 2010 at 10:24 am Comments *cough* Actually notepad means NOT that you cannot edit text. It's a text editor. Written By: yurunatsu Article Source: SoftKube Posted: July 22, 2010 at 10:29 am Comments Please don't say that Notepad is notepad. And it is free.
