to download and install the latest version of Reign of Chaos.Q: How to access private members with c++/cli? I'm creating a simple game using the c++/cli and I'm trying to access a private member of the CMyClass class through an instance of the class. The only way to access the private member is to create a new instance of the class. How would I go about doing this? Here's a simplified version of my code: #include "stdafx.h" #include "TestClass.h" TestClass::TestClass() : m_GameName("Hello World") { } CMyClass* TestClass::PlayGame() { m_Game = new CMyClass; m_Game->m_GameName = m_GameName; 1cb139a0ed
