but after  
installing  
nothing  
happened the  
dvd is not in  
the drive. Apr

We bought a

---

brand new car  
from BGFG (I  
cant remember  
the Dealer  
name) and they  
had NO DVD IN  
THE NAV. We  
wanted to buy  
a DVD like in  
our current  
car but they  
went overboard  
and bought the  
CD ONLY  
Navigation  
System with

---

this 2004 gmbh  
(German  
Edition)  
vehicle. The  
only option is  
2000 and we  
dont want to  
spend that  
much money on  
a dvd that we  
can replace  
years later.  
So we finally  
just bought a  
Navigation  
System with CD

---

that is in stock here at their local dealership but had to wait 8 weeks. When we finally got the paperwork and went to install it, they said that our car is an older model and it doesn't come with DVD as a package

---

or CD as a  
package and  
that they can  
only put the  
DVD

do I limit the  
number of  
colors applied

---

when rendering  
an image using  
directx 9? I  
have no  
problem  
applying a  
variety of  
different  
colors to an  
image I'm  
rendering. The  
problem occurs  
when I try to  
blend more  
than 8 colors  
in the same

---

frame. I try to blend many colors from my colormap one by one to control how the colors blend. I start with red, then green, then yellow, then purple, etc. Then I try to blend the colors from red to pink

---

and the red image doesn't change at all. Here's the code I'm using to blend the colors.

```
D3DPRI  
MITIVE_TYPE  
PrimitiveType  
= D3DPT_TRIANGLE  
LIST;  
D3DVIEWPORT9  
Viewport; UINT  
Size = 64;
