
Free Download Game Air Strike Ii Gulf Thunder

In 2005, DivoGames Ltd. publishes AirStrike II: Gulf Thunder for Windows. This action game is now abandoned and takes place in arcade, helicopter, as well as sea, air and land. You can choose any of the four classes of helicopters, for which there are a huge number of weapons in order to destroy the enemy. There are also tanks, armored vehicles and even fighter jets! In the end, you will have to fight against well-armed forces, as well as against pirates trying to take over your air and land bases.

The game consists of three campaigns. Two - with the participation of the Americans and the British, and one - with the Russians.
