What's New In?

... this is the development and testing version for an upcoming project. This plugin can be downloaded here: Plugin/Jardelmeiro/nTVision (PRO) Jardelmeiro is a package management tool for Mac OS X that installs, uninstalls, removes and upgrades software, quickly and easily. You can find it at I need 4 icons for an iOS app. Attached are a bunch of reference app icons that you should use. Preferably vector based ones. These need to be supplied in a PNG format (at 200dpi) with a transparent background. Should look similar to the icons you will see in the app store. I'm looking for a simple looking icon for a restaurant with the following details: -Blue and red/orange colors -Business name -Square shape -Bold/large font style -Appropriate to the location. I need 3 icons for a IOS App, the person I will be using for the bid is the developer of this app, but the icons that I need are just the company logo and a background icon, I already have the other 2 so I will need to gather one of those. I need 1 colour only. The icons need to be in the format png (200dpi). I prefer to have We want a new logo and a new icon for our business. We run 3 websites. We want a new logo for all of them. And for each of those 3 websites, a new icon. We can give you 3 different versions to choose from

(all 3 logos can be used for all sites) and don't want to see a photo of a logo I'm looking for a simple looking icon for a restaurant with the following details: -Blue and red/orange colors -Business name -Square shape -Bold/large font style -Appropriate to the location. I'm looking for a simple looking icon for a restaurant with the following details: -Blue and red/orange colors -Business name -Square shape -Bold/large font style -Appropriate to the location. ...two icons for a restaurant. - Menu name - Social media icons (FB, IG, Twitter, etc) All should be square with image background (no gradient etc). Must be a solid design that won't be blurred out as a background. I
