# Lovely Fighter Defiance UPDATED

## Free 18

Watch Street Fighter-One this Japanese kung fu karate blood orgy, ... and exposing the bloody carnage to the camera. Compared to other Street Fighter-style games, One-beat isn't much, but for this genre, I think it's just right. Basically you'll be punching with your fists, feet, nunchakus, head, and other implements of your opponents. But even if you can use weapons, I prefer not to use them because the game doesn't allow you to use them. If you like Street Fighter you should try One, because it is one of the most interesting and diverse games in the genre.
