## PROTECTED COLD WAR MEMORY:

A: I guess with your ListView you don't use `$model->setUrl(URL::ABSOLUTE_URL.'/images/'. $model->url_new);` because you set `$url_new = $model->url_new;` then you have to use the variable in the method in your controller `$this->load->model('m_database/users');`

```
$this->load->model('m_database/quotes'); $this->load->model('m_database/m_database_tools');  
$this->load->model('m_database/quotes_users'); $this->load->model('m_database/products'); $this->load->library('upload');  
//$this->upload->initialize($config); if($this->user_input){ $this->m_database_tools->user_id($this->user_input); }else{  
$this->m_database_tools->user_id('1'); } $this->m_database_tools->init_db(); $this->load->view('search_products/search_products');  
$this->load->view('search_products/list_products');
```

Hope it helps. Edit: you should set up the model url\_new with the field of the model public function `setUrlNew($new){ return $new; }` Welcome to the best KC Chiefs site on the internet.
