Deface Chrome Extension Crack+ Free

Hide Facebook's News Feed Free deface Chrome Extension For Windows 10 Crack Hide Facebook's News Feed by deface Chrome Extension easily. This small extension allows you to hide the news feed of the website Facebook so you can browse the website without getting distracted by the news feed. About: The developers of this Chrome extension, named deface, created this extension as a quick way to browse the website without getting distracted by the news feed. Moreover, the extension offers more features than its name suggests. Install this extension in the following steps: 1) Download the zip file of the extension from our website. 2) Unzip the file and copy the folder to your desktop. 3) Right-click the file and choose Run as administrator. 4) Enter the URL of the website you want to hide Facebook news feed from. 5) Click the Settings and check the box for Hide the News Feed. Why you need this extension: This Chrome extension is very useful for people who like to browse the website without getting distracted by the news feed. By default, the news feed is visible when you visit the website. But it doesn't hinder the web browsing. However, some websites, such as Facebook, have added the feature to hide the news feed by default, which means that you have to enable it from the options section. To be clear, this extension is very useful and reliable. If you hide Facebook's news feed, you can browse the website without getting distracted by it. Here are the options you need to enable from the deface Chrome extension. The extension has a settings panel that you can access by pressing the d-shaped icon in the corner of the Chrome browser. The panel has two sections: the first one, Deface Options, allows you to customize how the extension works. The second one, Hide the News Feed, allows you to turn on or off the news feed. Hide Facebook's News Feed Instantly switch the news feed from visible to invisible. The settings panel will hide the news feed automatically in its place. - Hide the News Feed - Hide Facebook News Feed - Hide the Facebook News Feed - Hide Facebook's News Feed - Hide Facebook's News Feed Facebook News Feed - Hide Facebook's News Feed - Hide Facebook News Feed - Hide Facebook's News Feed - Hide Facebook's News Feed Hide the News Feed from a specific website - Hide Facebook's News Feed from a specific website -

Deface Chrome Extension Crack Activation Key Free

Hides Facebook's news feed. Support: A Look Inside You can visit the extension's support page for this application to view its documentation. You can also view its support forum where you can interact with other users and ask them for help on operating and configuring this application. Handy Chrome extension that hides Facebook's news feed You can remove this application from your browser by uninstalling it. Alternatively, you can click the button in the toolbar to do so. Final Thoughts In case you wish to hide Facebook's news feed, deface Chrome Extension is a highly functional Chrome extension that provides you with the best distraction-free environment to keep in touch with your friends. It integrates well into Chrome and features intuitive functions. In addition, the Quick Peek and Deface Off buttons provide you with the same result. However, the Toggle Height button and the d-shaped icon do not function. Sharing options Facebook is one of the best social networking websites, or platforms, because of the great sharing capabilities it provides. Some users, on the other hand, are not that keen on the news feed and therefore prefer to keep it hidden or even turned off. There is a dedicated Chrome extension that can be used to do so, as well as an effective Facebook chat tool that can provide you with an efficient chatting environment. The best part about this application is that it is free of charge, easy to use, and highly functional, providing you with a distraction-free environment to keep in touch with your friends. Final verdict We can conclude that deface Chrome Extension is a highly efficient Chrome extension that can provide you with a distraction-free environment to keep in touch with your friends. It comes with intuitive functions and you can use the Quick Peek and Deface Off buttons to hide Facebook's news feed. However, the Toggle Height button and the d-shaped icon do not work. Hi, dear user. Today we are presenting you with a great Facebook extension that can do the job you need. It has a price tag of free, but we do not mean it as a disadvantage. The reason for that is because the application supports a free trial option, which you can use if you wish to try it before making a decision. After you have downloaded the app and enabled it, you will be able to see how it can benefit you. It is capable of showing you Facebook status updates on a map and leaving the news feed hidden. All you need to do to make

What's New in the?

If you like to keep in touch with your friends on Facebook but are constantly distracted by the news feed, you probably want an efficient way to hide it. Fortunately, nowadays you can accomplish that easily by turning to specialized software such as deface Chrome Extension that can help you do so with minimum efforts. Please be aware that for this application to run as intended on your computer, you need to provide it with Google Chrome, Internet connection and a Facebook account. Integrates well This extension integrates well with Chrome and requires no additional configuration. You can make use of its capabilities by navigating to Facebook since its purpose is simply blocking it while leaving the chat panels intact. There is no form of standard help documentation, either, as its functions are intuitive enough for you to operate them without significant efforts. Hides Facebook's news feed This extension can be used to hide Facebook's news feed and leaving the chat panes untouched, thus providing you with a distraction-free environment to keep in touch with your contacts. The only necessary step you need to take to benefit from deface Chrome Extension's capabilities is to log in your Facebook account and navigate to the home page. The extension automatically hides the unwanted content from the page. Quick peek In case you want to temporarily toggle the visibility of the news feed, you can click the d-shaped icon in the corner of the screen and select the corresponding action from the menu. Although it features a Quick Peek button and a Deface Off one, clicking them provides you with the same feedback, as the news feed is temporarily visible, until you click the d-shaped icon again. During our tests, clicking the Toggle Height button triggered no result. Handy Chrome extension that hides Facebook's news feed All in all, deface Chrome Extension is a handy Chrome extension that can provide you with a distraction-free chatting environment by hiding Facebook while leaving its chat panels untouched. It integrates well into Chrome and comes with intuitive functions. However, the Quick Peek and the Deface Off buttons provide you with the same result and the Toggle Height one does not function.
