## **KMSpico V9.0.5.20131110 RC Activ**

kmspico v9.0.5.20131110 rc activated KMPlayer is a multimedia processor that is completely different from other players. It does not require the installation of third-party codecs, as it will install them itself as needed. In addition, it is possible to launch and operate the program from removable media. The program has its own built-in media center, converter and encoder, and it also has integrated support for subtitles, resume missing files, integration with Windows 7/8 operating systems and much more.
