Installation: Create a bootable USB (highly recommended) with Rufus; Or write to .iso image and organize a bootable flash drive using FAX or NTFS; Download, run, confirm in a command prompt window, or run again via the menu File -> Reset All, and then restart your computer. The program allows you to access the Boxes.exe file and the Control File, which are located on the hard disk and which become available after executing this command. For example, the computer received the win7setup.exe command and now has the ability to access the Boxes and FileUpdater.ex.wbf files on the hard drive, as well as Functions. To access all File files, you need to simultaneously press the F5 key. Library As a rule, all programs make up libraries that implement the Remote Application Hooks technology. Remove Box Services: Removes the REMOTE\_AP\_STATE services from the ROM. Just disable all services that support Remote Apps! Important: When uninstalling services, disable services that require the Microsoft .NET Framework to be installed. Installation Options Registry Formatting and Formatting If you want to disable the Box service (for example, on Windows Vista), look for headers for the service. Disable if you want to enable. 3. Windows Update Task View This utility will help you solve problems with a frozen Disk Drive. Click Control Panel and select Calibrate Windows Update. Then, in the list of Windows updates, select "Microsoft Update: Install. Click the OK button. Repeat the installation process. 4. Advanced Customization: Adding the Safari Browser To make your computer more powerful, you can add additional features. To do this, go to the All tab in the Browser window. Select Safar from the list. Then select Add. In the list of your settings, set customize. After that, in the browser window, return to the tab
