RVX Manager can be customized and extended to meet the needs of your business.Q: Convert an html table into PDF and save as pdf using Angular 4 I am using Angular 4.2, and I have an html table which I want to convert into PDF. I am able to get the table with some information into pdf, and even when there is a table with two columns of 100 and 200 row, the PDF is created correctly. But, when there is a table with 50 columns and 400 rows, and the PDF is created, the HTML content is shown and the PDF is not created. I am using ItextSharp and the PDF is being created in a byte array. Is there anything wrong in this piece of code? HTML code `{{x.Email | regex:'[A-Za-z0-9_%+-]+@[A-Za-z0-9.-]+\.[A-Za-z]{2,}' | uppercase}} {{x.Subject | regex:'[A-Za-z0-9_%+-]+@[A-Za-z0-9.-]+\.[A-Za-z]{2,}' | uppercase}} | d6a3396d6`

RVX Manager

Depending on customer requirements complexity, these extensions can be defined by the user, provided as services by our company or by a third party software developer. In this way, the customer can adapt the system to its needs at a right cost and time. Customers that needs custom software development have also the advantage to easily find experienced programmers that will develop and integrate special functions into RVX Manager. ... more information » Save time and develop a standard ERP Since its creation in 2001, RVX Manager has been particularly developed for companies that require an open, flexible and standard ERP solution. RVX Manager is a tool to simplify any complex business process by developing a standard ERP system that contains all the functions of a small company and a medium size one. This standard system can be customized according to customer needs in order to adapt it to any company. Based on this standard model, it is possible to implement and distribute a very flexible software system. This is a positive point of RVX Manager that has been proven by companies that are using this system for several years. RVX Manager can be extended with the possibility of creating a "customer brand" with the integration of all functions required by a company. Customers do not need to install a new ERP system, the only thing they need to do is to configure their company information in the standard ERP system. Description: RVX Manager is a standard, open and flexible ERP solution with the ability to adapt to any business process and control the results with a minimal cost and effort. RVX Manager implements standard business processes such as: inventory control, sales, purchases, manufacturing, financial accounting, human resources management, assets management.
