## AutoCAD Incl Product Key Download [Latest] 2022

History AutoCAD has gone through a number of rebrandings since its initial release. In 1982, Autodesk renamed AutoCAD to simply CAD, and with the release of version 1.0 in 1987, Autodesk launched its first shared-user, multi-user environment for CAD software. The original Autodesk-licensed CAD products were AutoCAD and Autodesk Inventor, which were available on the Apple II, Commodore 64, and other platforms. Autodesk later expanded the CAD market by developing the parallel product AutoCAD LT, which was released as shareware in 1992. The development of AutoCAD, AutoCAD LT, and other Autodesk products (such as SketchUp) was discontinued in 2009. At the time of the discontinuation, Autodesk said that it would continue to support AutoCAD, Inventor, and Autodesk Maya through 2020. In 2014, Autodesk launched its first free CAD software, AutoCAD Cloud, which runs on web browsers (including mobile and tablet devices) or a desktop computer. The earliest version of AutoCAD was called AutoCAD 1.0. The first product to use this version was the company's first 32-bit version of AutoCAD, AutoCAD II, which was released in May 1988. Version 2.0, the first version of AutoCAD to support the format of CAD drawings created using CADDs, was released in November 1991. Version 3.0, which introduced the 3D object model, was released in February 1994. Version 3.5, which introduced 2D Vector tools, was released in December 1996. Version 3.6, the first version to be renamed, was released in December 1997, and added internationalization and PostScript export. Version 3.5x was released in October 1999, and added a new scripting language, MacroCAD. AutoCAD 4.0, the first version of AutoCAD to use the 32-bit-only GDI+ graphics libraries, was released in March 2001. AutoCAD LT was introduced in 1992 as a less expensive alternative to AutoCAD. The first release of AutoCAD LT was AutoCAD LT 1.0, which was released in September 1992, with a price of \$399. The last version released for the Microsoft Windows operating system, AutoCAD LT 4.0, was released in December 2004. AutoCAD LT
