I've been searching for this in a bunch of places online, but I'm coming up with nothing. I'm trying to use the QListView and QListViewLayout classes in Qt4.7 to create a QDialog for displaying the contents of a QVector, but I can't seem to get the layout to fit the content of my QListView. I've tried the following setup: #include #include #include #include #include 1cb139a0ed
