

Simple Ripper Crack + With Full Keygen Download PC/Windows

Simple Ripper is a small software application whose purpose is to help you record music from unencrypted streams, such as SHOUTcast and Icecast, using StreamRipper. It can be deployed on all Windows versions out there. Portable

---

running mode This is a portable utility which can be dropped on USB flash drives or other portable devices so you can have it with you all the time. Plus, you may run it without administrative privileges. It does not store entries in your Windows registry so you can get rid of it using a simple deletion task. Gaining access to the program's features requires only opening the executable file (as there's no setup included in the process).

---

Simple looks Simple Ripper adopts a minimalistic layout that integrates only a few options. There's no support for a help manual so you need to experiment a little bit with the built-in configuration settings in order to understand how it works. Radio station recording tweaks The application gives you the possibility to complete the recording process in only three steps. In the first place, you need to pick the preferred genre from

---

a drop-down list. In addition, you can make the program look for music via the SHOUTcast or Icecast catalogue, as well as manually specify the streaming URL directly in the main window. The second step allows you to select a user-defined location from your computer where the recordings are stored. The last step offers you the freedom to enable the recording mode with a simple click. In order to complete the recording

---

process successfully, you need to have StreamRipper installed on your computer. Simple Ripper is able to process only free streaming radio stations. Final remarks All things considered, Simple Ripper comes packed with several handy features for helping you record audio streams using just a few clicks. Note: Do not share the music you obtain by recording Internet radio with anyone - you do not have the rights to distribute copyright

---

music. You are only  
‘timeshifting’ the streaming  
music by recording it to listen to  
it later. However, it is your sole  
responsibility to make sure you  
are using this application and the  
music you obtain from it for only  
legal uses.
