What's New In?

Lattice Composer is a freeware filter developed to work with Adobe Photoshop. It effectively designs grids and nettings. It produces a variety of weave patterns, fabric textures, body art tattoos and skeleton simulations. The 3D text effects are extraordinary. You can find

numerous beautiful Photo Frames on our samples page. Downloadable presets are also available. Lattice Composer is the replacement of the former Mesh 3D filter. Supported Photoshop version: To install Lattice Composer filter into Photoshop: 1. Go to Tools->Filter menu 2. Select Lattice Composer from drop down menu 3. A new window will open where you can set the

settings for the Lattice
Composer filter 3.1 Lattice
Designer: The Lattice Designer
is a vector based 3D sculpting
tool. It's ready to go and
extremely easy to use. It comes
with three camera views and
three fly-through animations.
Use the existing mesh model or
create a new mesh from
scratch. You can rotate and
scale the mesh model as you
want. You can either create a

solid 3D object or a wire frame mesh.

3.2 The Lattice

Composer tool window: If you need a wire frame mesh, just change the setting of the Lattice Designer tool to wireframe mode. If you want to save your mesh as a.stl, download Lattice Composer tool window presets, then import your mesh in the Lattice Composer tool window. You can also design a solid 3D object directly in the Lattice

Composer tool window with the default settings. The wireframe and solid models can be converted to the layer style.stl format.

3.3 Set the Lattice Designer:

From the Lattice Designer tool window, click on the Gear icon to open the settings panel. You can set the default values in the Lattice Designer settings panel. If you want to change the color of the mesh model, you need to

download a mesh model with the same color, then import it into the Lattice Designer tool window. You can use the tweening tool to animate the mesh. You can also use fly-through animations.

3.4 Use Lattice Composer to create:

You can create a 3D solid model in the Lattice Composer tool window or a mesh model from the Lattice Designer tool window. The Lattice Composer

is the replacement of the former Mesh 3D filter. 3.5 Mesh Presets: From the settings menu, click on Mesh Presets and you'll see a list of available mesh presets. You can open the mesh in the Lattice Designer tool window to create a mesh model with that mesh preset.

3.6

System Requirements For Lattice Composer:

**Minimum: OS: Windows
7/8/10/Server 2012R2/Server
2016 x64 Processor: Core i5
3.40GHz Memory: 8GB RAM
Graphics: NVIDIA GeForce
GTX 660 or AMD Radeon HD
7870 DirectX: Version 11 Hard
Drive: 100GB free space
