The software that catalogues and provides statistics on your sheet music library. ◆ Librarian Edition supports a computer-based music library for over 6,000 individual titles including, but not limited to, sheet music and score formats, including: ◆ MusicXML ◆ Authorware ◆ PDF formats ◆ PDF/A formats ◆ Binder formats ◆ Fluid formats, including: ◆ JPG ◆ PNG ◆ GIF ◆ TIFF ◆ Snapshot formats ◆ Foxnote ◆ PNG-FX ◆ Echo ◆ MusE ◆ Clip, Lottile, Notes, and Diff ◆ Enhanced PDF Formatting ◆ Key Manager (manage parts, track lending, grant and renewals) ◆ Named and numbered parts ◆ Track borrower information ◆ Printable reports ◆ Analytic reports and statistics ◆ JavaScript for entire system and administrator pages Included in this version: ◆ Librarian Edition ◆ Book Edition ◆ online help ◆ Microsoft Certificate of Authenticity This is a free 30-day trial of the Librarian Edition and 30 days of the Book Edition. MS Sharepoint has the ability to be configured to be as secure as it needs to be. The only other user I've seen used it is a music director for a regional symphony. He doesn't use any of the social web applications that Sharepoint has. So, he didn't have any desire to use any of the built in intrusion detection or strong authentication methods. This is important because some people will use Sharepoint just as an organization tool. For them, it's okay to grant them the ability to be free to do what they want. For those for whom that's not an option, it may become necessary to have them share in their duties as well. I think it's important to reinforce the points that Sharepoint will NOT make anyone a spy. It's very secure, just how it was designed. It just happens to be a web application and not a desktop application. If you already have a song site you could just 09e8f5149f
