HyperTRANSCRIBE License Key Full For PC (2022)

HyperTRANSCRIBE Torrent Download is a powerful software that allows you to transcribe video and audio files. With keyboard shortcuts that keep your fingers close to the "home row" you can transcribe without needing a cumbersome footpedal. Customizable shortcuts enable you to enter blocks of text in a single keystroke. Media files can be played in segments of definable length. By using HyperTRANSCRIBE, you can easily translate your video and audio files into text documents. HyperTRANSCRIBE Features: Transcription of video or audio files (files that can be played on your computer). Support for many file formats (for example WMV, MKV, FLAC, MP3, WAV, AIFF, MP2, AVI, MPEG, MP4, JPG, PNG, GIF, PDF, DOC, DOCX, PPT, ODT, TXT, ODS, ODP, XLS, ODP, XLSX, PDF, HTML, RTE, HTA, MP3, MP4, WMA, APE, ASF, WAV, OPUS). Multiple simultaneous transcribing (very useful to simultaneously transcribe several audios in parallel). Easy to use interface. Transcription without stopping the audio (you don't need a footpedal to transcribe). No need to transcribe at a slow pace (you can transcribe at the maximum speed of your computer). Transcription stops automatically when you put the mouse cursor in a different window. HyperTRANSCRIBE has also the powerful "Text By Words" feature, which allows you to edit the text as a result of a word-by-word analysis of the previously transcribed audio. Software options: Ability to convert from QuickTime, Ogg Theora or MP3 to H.264 (for Windows only) Ability to set up start and end points (slowed down if it is too fast) Ability to set up a delay to control speed Ability to set up loop (audio files can be transcribed in any order) Ability to adjust the keyboard shortcuts Ability to merge audio/video files into a single file Ability to share the newly created text file via ftp, email or even social networks (Facebook, Twitter) HyperTRANSCRIBE is the ideal tool for transcribing any multimedia files that you may find on the Internet. "Transcribe at any

HyperTRANSCRIBE Crack+

What's New In HyperTRANSCRIBE?

* High performance transcribing software with keyboard shortcuts* Easy to use* Select blocks of text and jump to end of selected block* Add a file list to the project list* Turn on/off single file or the project* Multiple project support* Handy keyboard shortcuts* Play the media files in separate blocks. You can choose how many blocks you want to play* Analyze the text with word counts* A powerful statistics module that indicates how often words are used. You can define as many as 9 media files or project files with name, file extension, length and a date for each file. You can create and edit your own projects. You can add any type of media file to them. You can convert a single media file into multiple projects. * Enhanced Media Player HyperTRANSCRIBE features a powerful enhanced Media Player. HyperTRANSCRIBE allows you to play a video file in "repeats" of defined duration. You can analyze the transcribed text and get statistics on the usage of words and phrases and other interesting parameters. More features and more fun! Join the social network and share your own thoughts about this program: What is new in this release: * Added the HyperTRANSCRIBE iPhone App for iPhone, iPod and iPad. It allows you to store all your projects and open them on your iPhone, iPod or iPad. * Added the HyperTRANSCRIBE video tutorial for iPhone. This video shows you the enhanced Media Player, how to add a media file to a project, how to play a media file in intervals and how to convert a single media file into multiple projects. Bugfixes: * Fixed an issue with file naming: By accident, you could now name a folder to a project name. Thanks to Pedro Gertschler for reporting this bug. * Fixed a bug where the Database could be deleted. Thank you to Andreas Zeller for reporting this bug. HyperTRANSCRIBE 1.2.3 HyperTRANSCRIBE is a powerful software that allows you to transcribe video and audio files. With keyboard shortcuts that keep your fingers close to the "home row" you can transcribe without needing a cumbersome footpedal. Customizable shortcuts enable you to enter blocks of text in a single keystroke. Media files can be played in segments of definable length. By using HyperTRANSCRIBE, you can easily translate your video and audio files into text documents. HyperTRANSCRIBE Description: * High performance transcribing software with keyboard shortcuts* Easy to use* Select blocks of text and jump to end of selected block* Add a file list to the project list* Turn on/off single file or the project* Multiple project support* Handy keyboard shortcuts* Play the media files in separate blocks.

System Requirements For HyperTRANSCRIBE:

It is very important to use a very good and fast internet connection for the best gameplay experience, otherwise you won't be able to enjoy the game fully. It is recommended to use a PC running Windows 7 or higher, because of the game's heavy use of the CPU and the graphics card. Additional requirements can be found on our website at www.NilFactory.com.
