English-Afrikaans-English is an application that contains an offline database with words translated between English and Afrikaans. It's practical for those who are studying these two languages side by side. Offline vocabulary of over 30,000 English and Afrikaans words Before proceeding any further, you should know that English-Afrikaans-English isn't a typical translation tool, in the sense that it doesn't give you the possibility to enter a word or phrase in a box, then click a button and view how it's translated in the other language. Instead, it has a vocabulary with over 30,000 English and Afrikaans words, which can be read from cards. It features a search tool for quickly spotting a particular word (in any language), but the biggest advantage is that the translator has an offline database. This means that you can browse the vocabulary even when you're not connected to the Internet. But, if you're using it as a way to learn the letters and sounds, then maybe. The database is pretty nice though, since it doesn't show words and their definitions, you have to know the real words of the languages first. And don't get your hopes up, it's not meant to replace Google Translate. A Google UserMar 12, 2015 Very Useful For Afrikaans Learners Useful to learn both languages side by side. However, searching from cards leaves a lot to be desired, it is much better to use an app like Google Translate. A Google UserMar 09, 2015 A very useful tool for learning Afrikaans English does all it's talking about. Some cards offer no information at all about the English meaning A Google UserMar 07, 2015 Excellent app! Highly recommended for learning both Afrikaans and English!
