========= ========= Transmit messages from your Mac's Audio In/Out port to your MIDI gear. Keys are perfectly readable, despite the droning tones used in the OS X MIDI "System Preferences" MIDI Setup utility. Why use Keymacro? ========= ========= You can get out of your Mac's Internal MIDI System with Keymacro! It can transmit messages from your Audio In/Out port to any MIDI enabled gear. No need to go to the "System Preferences" MIDI Setup Utility. Keys are perfectly readable and don't sound like your Mac is beeping. Features: ======== * Transmit MIDI Messages * Tune MIDI Channels * Mapping MIDI Ports * Sound Profiles * Presets * Configuration Menu * MIDI Studio * Web Interface This application was created for your Mac to make use of the latest MIDI feature, called "MIDI over USB", and for your music gear to work as it should. Download Keymacro and see what it can do. All About Keymacro ================= Keymacro does exactly what it claims. Keymacro ============= Keymacro is a utility for connecting your Mac's Audio In/Out port to any MIDI enabled gear. It can transmit messages from your Audio In/Out port to any MIDI gear. In fact, it can transmit messages from your Audio In/Out port to your MIDI gear even if there are no MIDI IN ports on your Mac! That's right, the classic ARDOUR "System Preferences" MIDI Setup utility only enables you to choose a MIDI OUT port on your Mac. If you need to choose a MIDI IN port, you need to use an Audio IN/OUT port, such as an external sound card. Let's say that your Mac has only one Audio IN/OUT port. With Keymacro, you can transmit messages from this Audio IN/OUT port to any MIDI gear. You can transmit messages from a MIDI OUT port on your Mac to MIDI IN ports on a MIDI enabled music gear. That means that your Mac can transmit messages to other Macs running Keymacro. This tool lets you get out of the OS X MIDI System, and it transmits messages to any MIDI enabled gear. So, you can get out of your OS X MIDI System with Keymacro! Tune MIDI Channels ================= Keymacro supports transmitting messages between your Audio In 1d6a3396d6
