

The exact same thing happens to me with DBI, when I run `sqlite3 $dbname. "0B0"`, and it will run until it hits `#`, then it will quit. Same with `sqlite3`. `Db2-fms`: Using `commit`. `SQLite` does not always have the same behaviour as `SQLite2`. * Why does `sqlite3` break at the end of a command? Please provide the detailed steps you take

to reproduce the issue, or attach a standalone Running dbf-commander-professional-2.2-build-35 requires the installation of a . No items have been added yet!
