A: I'm guessing you installed the package "vim-common" or some similar package. Those packages are usually meant to be included as dependency to all "vim" packages, but depending on the vim you installed it might also be included to the vim-tiny/vim-enhanced packages too, which would explain why you're seeing that. To fix that either uninstall that package or move to a new installation. A: I have solved the problem: deleted all vim-related packages (including vim-common, vim-enhanced, vim-runtime, vim-tiny, vim-gtk) installed all vim-related packages again all works fine While some may view the wobbly rock as an eyesore, others find a use for a tree trunks as furniture for their properties, and even use them for a stepping-stone for a path to water. Unfortunately for one farmer who also happened to be a painter, the crumbling outcrop had taken a toll on the once-fine masterpiece he'd created. After learning that the rock formations and tree trunks in his property were going to be removed, the farmer decided to take matters into his own hands by turning the fragile structures into a stepping-stone path. The farmer described the process, including an 18-month wait for the trees to settle into place, as

being surprisingly easy. On the left is a modern tree, while on the right, one similar to the ones that would eventually replace it. Image: James Hoyer "It's quite a joyful job, seeing them fill in the gaps and change what previously was an ugly but functional, overgrown rock," he said. "As good as any of the homes, and probably better." The process took over 18 months to complete, but once it did, the resulting path proved to be a real benefit for the homes of two Dutch farmers who had purchased nearby parcels of land to build new homes for themselves and their families. Image: James Hoyer The farmer told Gardenista that he'd struggled to understand why all his closest friends and family were so enamored with a rock formation in his yard. It wasn't until he visited an art gallery that he realized the 3e33713323
